Concrete Restoration
Repair Products

**Duo Patch**
Two-component, polymer-modified concrete repair mortar
A two-component, polymer modified concrete repair mortar with integral corrosion inhibitor for use in horizontal, form and pour and when mixed to a stiffer consistency, vertical and overhead applications.

**Final Finish**
Ultra-fine, rapid hardening/polymer-modified/concrete resurfacer
A one-component, rapid hardening, polymer-modified concrete resurfacing mortar for smoothing, resurfacing, rubbing and restoring concrete surfaces.

**PreCast Patch**
General purpose concrete repair mortar
A general purpose fast-setting polymer-modified concrete repair mortar for concrete floors, walls, precast, tilt-up and masonry surfaces.

**RepCon 928**
Rapid hardening, single component, fiber reinforced, structural repair mortar
A single component, polymer-modified, fiber reinforced, rapid setting concrete repair mortar with integral corrosion inhibitor for use on concrete floors, highway pavements, bridge decks and other applications requiring early resumption of traffic or use.

**RepCon V/O**
Single component, fiber reinforced, polymer-modified concrete repair mortar
A single component, polymer-modified, fiber reinforced concrete repair mortar with integral corrosion inhibitor for use in a variety of vertical and overhead repair applications.

**RevCrete**
Polymer modified concrete repair/resurfacing mortar
A one-component, polymer-modified concrete repair/resurfacing mortar for smoothing, resurfacing, and restoring concrete surfaces.

**SpecPatch**
General purpose concrete repair mortar
A general purpose concrete repair mortar for concrete floors, walls, precast, tilt-up and masonry surfaces.

**SpecPlug**
Fast-setting hydraulic cement mortar
A durable, fast-setting hydraulic cement mortar that stops flowing water through holes and cracks in concrete and masonry surfaces.

**SpecRock**
Non-shrink, fast-setting, pourable anchoring cement
A one-component, waterproof, non-shrinking, Portland cement-based anchoring cement that sets in 8-10 minutes. It expands as it sets locking into the surrounding concrete.

**SpecPoxy Mortar**
Three-component, 100% solids, multi-purpose, epoxy mortar
A three-component, 100% solids, multi-purpose, epoxy mortar. The system combines a high quality epoxy resin and curing agent with an engineered blend of graded aggregates.

**SpecFlow**
Premium self-leveling cement-based underlayment
A cement-based, non-shrinking, self-leveling floor underlayment designed for interior use. This single component product produces a smooth subfloor that will accept floor coverings in as little as 12-18 hours after installation.
SpecFlow

Premium self-leveling cement-based underlayment

A cement-based, non-shrinking, self-leveling floor underlayment designed for interior use. This single component product produces a smooth subfloor that will accept floor coverings in as little as 12-18 hours after installation.

- Produces a flowable underlayment with flow time of 20 minutes
- Self-leveling, requiring no troweling
- Is compatible with subsequent adhesives for carpet, tile, etc.
- Superior durability in tough construction environment
- Can be featheredged without fear of chipping or spalling
- Exceptional adhesion and ability to withstand building dynamics
- Produces a smooth, blemish free surface which does not require grinding or sanding
- Can be used on new construction projects to correct rough, unfinished, or uneven floors
- Excellent flowability and finish to reduce excessive labor costs
- For use over concrete, terrazzo, tile, wooden floors, metal, cutback and other adhesives

Repair Products

Final Finish
Ultra-fine, rapid hardening/polymer-modified/concrete resurfacer
A one-component, rapid hardening, polymer-modified concrete resurfacing mortar for smoothing, resurfacing, rubbing and restoring concrete surfaces.

PreCast Patch
General purpose concrete repair mortar
A general purpose fast-setting polymer-modified concrete repair mortar for concrete floors, walls, precast, tilt-up and masonry surfaces.

RevCrete
Polymer modified concrete repair/resurfacing mortar
A one-component, polymer-modified concrete repair/resurfacing mortar for smoothing, resurfacing, and restoring concrete surfaces.

SpecPlug
Fast-setting hydraulic cement mortar
A durable, fast-setting hydraulic cement mortar that stops flowing water through holes and cracks in concrete and masonry surfaces.

SpecRock
Non-shrink, fast-setting, pourable anchoring cement
A one-component, waterproof, non-shrinking, Portland cement-based anchoring cement that sets in 8-10 minutes. It expands as it sets locking into the surrounding concrete.

Two-component, polymer-modified concrete repair mortar
A two-component, polymer modified concrete repair mortar with integral corrosion inhibitor for use in horizontal, form and pour and when mixed to a stiffer consistency, vertical and overhead applications.

**SpecPatch**
General purpose concrete repair mortar
A general purpose concrete repair mortar for concrete floors, walls, precast, tilt-up and masonry surfaces.

**RepCon 928**
Rapid hardening, single component, fiber reinforced, structural repair mortar
A single component, polymer-modified, fiber reinforced, rapid setting concrete repair mortar with integral corrosion inhibitor for use on concrete floors, highway pavements, bridge decks and other applications requiring early resumption of traffic or use.

**RepCon V/O**
Single component, fiber reinforced, polymer-modified concrete repair mortar
A single component, polymer-modified, fiber reinforced concrete repair mortar with integral corrosion inhibitor for use in a variety of vertical and overhead repair applications.
4 Products For Professionals

**DUO PATCH**
STRUCTURAL HORIZONTAL REPAIR MORTAR
- Easy to use 2-part system
- Contains integral corrosion inhibitor
- May be used as a screedable underlayment or overlayment
- May be used as a trowelable repair material
- May be stained or used with integral color
- Interior/Exterior Application
- Excellent freeze-thaw resistance

**SPECPATCH**
ALL PURPOSE REPAIR MORTAR
- One component—Just add water
- Polymer modified—Enhanced bonding strength
- Can be featheredged
- Repairs up to 2” in thickness
- Designed for interior and exterior repairs
- Excellent durability and adhesion
- Cures to a natural concrete-gray color
- Enhanced flexural and tensile properties

**REPCON V/O**
STRUCTURAL VERTICAL/OVERHEAD REPAIR MORTAR
- Contains integral corrosion inhibitor
- One component dry polymer-modified—Just add water
- Fiber-reinforced for added strength
- Excellent freeze thaw durability
- Hand-applied or spray applied for large projects
- Easy to apply/finish consistency up to 2”
- Cures to a natural concrete-gray color
- Can be shaped/shaved

**REPCON 928**
STRUCTURAL HORIZONTAL REPAIR MORTAR
- Achieves 3,000 psi strength within three hours
- Contains integral corrosion inhibitor
- Can be polished
- One component, dry-polymer-modified—Just add water
- Fiber reinforced for added strength
- Excellent freeze thaw durability
- Takes foot traffic in 2 hours
- Numerous DOT approvals
