

Compatible Sprayer

SpecChem continues to work with other industry participants to ensure you have the right tools to work with SpecChem products. SpecChem recently completed a series of regimented compatibility testing with Chapin Sprayers to ensure you have the right model for your application. When using the following products, please refer to the Chapin 19049 Xtreme Sprayer. The 19049 tri-poxy coated sprayer comes standard with one each .5 and 1 gpm tips. Between both tips this sprayer will satisfy 98% of the sprayer application needs out there.
