

DECO LIQUID RELEASE

Liquid release for decorative texturing mats

DESCRIPTION

DECO LIQUID RELEASE is a colorless liquid release formulated and recommended for use with decorative, mat-type concrete, texturing mats. It forms a lubricating barrier that prolongs the life of the imprinting tools by decreasing the friction between the mats and the concrete.

DECO LIQUID RELEASE is used in the texturing process of both colored and uncolored concrete. It is also used as an alternative to powdered release agents that may not be desired in certain circumstances, such as interior projects.

FEATURES/BENEFITS

DECO LIQUID RELEASE:

- Reduces clean-up cost
- Extends life of texturing mats
- Has a pleasant scent

SPECIFICATIONS/COMPLIANCES

Compatible with elastometric texturing mats designed for decorative horizontal concrete.

APPLICATION

Trowel and finish newly poured concrete surfaces in preparation for the imprinting process. When the concrete has reached the plastic stage desirable for imprinting, DECO LIQUID RELEASE should be used between the texture mats and the concrete to prevent sticking and concrete build up.

Apply in temperatures between 55°F and 80°F. Using a pump-type sprayer, liberally apply a mist of DECO LIQUID RELEASE on the texturing mats AND on the concrete surface, but only on the area where you are going to place the next few mats. Apply over an area of approximately 10 to 15 square feet to avoid evaporation before the mat placements are made, especially on dry windy days.

COVERAGE

One gallon of DECO LIQUID RELEASE will release approximately 150-250 square feet of concrete surface.

PACKAGING

55 gallon drums (208.2 L)
5 gallon pails (18.9 L)

SHELF LIFE

When stored in the original, tightly closed container, preventing the accumulation of water, dirt or other contaminants, the shelf life is two years from the date of manufacture.

LIMITATIONS/PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN

Avoid ingestion

Avoid excessive inhalation of vapors or mist.

Avoid contact with skin and eyes

Use appropriate protective clothing, including gloves, goggles and approved respirators

DECO LIQUID RELEASE can only be used on the immediate area to be imprinted. If used on an extensive area at one time, it will evaporate before the concrete can realistically be textured. Never trowel or mix DECO LIQUID RELEASE into the plastic, concrete surface.

Avoid hazards by following all precautions found in the Material Safety Data Sheets (MSDS), product labels, and technical literature

DO NOT EXPOSE TO OR APPLY NEAR FIRE OR FLAMES. FOR WELL VENTILATED OR EXTERIOR USE ONLY!
