**DESCRIPTION**

ORANGE PEEL concentrate is a cost effective, natural citrus solvent, cleaner and degreaser. ORANGE PEEL is an innovative solution for the toughest industrial applications. ORANGE PEEL will effectively remove grease, grime and other contaminants from architectural concrete and other surfaces. ORANGE PEEL can also be used to dissolve and strip many types of carpet and tile cutback adhesives safely and effectively. ORANGE PEEL’s versatility can eliminate the need to stock multiple cleaners. Standard harsh cleaners and degreasers are made from chlorinated solvents or hydrocarbon solvents that can be hazardous to use and to dispose. ORANGE PEEL is V.O.C. compliant with a pleasant citrus odor. (check local regulations)

**APPLICATION**

*Storage*: Store material in the original tightly closed containers. Do not allow the accumulation of water, dirt or other contaminants.

*Coverage*: Concentrated ORANGE PEEL is ready to use on tough jobs or follow the recommended dilution table. Field test to determine the optimal concentration for the specific application. The product will turn white when diluted with water.

*Use*: Scrape off excess accumulations of grease, grime and contaminants. Apply ORANGE PEEL to the floor or stain either as a concentrate or at the recommended dilution rate. Spread uniformly over the surface and allow product to penetrate for approximately 5 minutes. ORANGE PEEL’s unique blend of emulsifiers and wetting agents allow maximum penetration for effective cleaning.

Scrub area with a stiff bristle broom or a power floor scrubber. Thoroughly rinse the entire area with clean water. Stubborn stains may require additional treatments.

Stripping acrylic curing/sealing compounds will require heavier applications and may require additional treatments to completely remove.
