Clean Lift 20/20

Premium reactive water-based tilt-up Cure/Bondbreaker

CLEAN LIFT 20/20 is a chemically reactive, water-based tilt-up cure/bondbreaker specially engineered to provide a clean, easy lift of tilt-up panels and meet the moisture retention of ASTM C 309. CLEAN LIFT 20/20 contains no diesel, kerosene, waxes or silicones.

**BENEFITS**

- Easily identifiable on the casting slab
- Clean panels lift easier, no resin stains
- Resists foot traffic abrasion

**USAGE**

- Warehouse Walls
- Office Building construction
- Big Box Stores
- Hotels and tall buildings up to 10 stories
- Shopping Centers
- Applications where structures need to go up quickly and economically.
