SpecTilt WB

SpecTilt WB: Beacon Lakes - Miami, FL

Contractor: Conlan Company

185,000 sq ft!

SpecTilt WB was selected for the Beacon Lakes project by Conlan Company. Since it was founded in 1987, The Conlan Company has grown from a small commercial contractor headquartered in Atlanta, Georgia to a major regional contracting firm with offices in Atlanta, Georgia and Jacksonville, Florida.

SpecTilt WB is a premium, chemically active water based tilt-up cure and bondbreaker specially engineered to provide a clean, easy lift of concrete tilt-up panels. As a result, tilt-up panel faces are clean and tight. SpecTilt WB is widely used all over the United States, Canada, Mexico, Latin America, Central America and Australia. SpecTilt WB contains no diesel, kerosene, waxes or silicones. May contribute to LEED credits.

SpecChem provides the most comprehensive concrete chemical systems in the industry. For more information call your local SpecChem sales professional. 866.791.8700 or www.specchemllc.com

SpecRez

Water Based Dissipating Resin Curing Compound

- Ensures proper curing, resulting in stronger, more wear resistant concrete
- Water Base, VOC Compliant (VOC less than 100g/l)
- Meets ASTM C 309

SpecTilt WB

Reactive Water-Based Bondbreaker

- Panels lift easier
- Clean panels, no resin stains
- Leaves no residue, stain or discoloration
- Resists foot traffic abrasion
- VOC Compliant < 350 g/l
