Bio Strip WB

100% biodegradable water based form release agent

Bio Strip WB: University of San Diego

General Contractor: Sundt Construction

Concrete Contractor: Webcor

Bio Strip WB out performed three other competitive products for the University of San Diego in La Jolla, CA. The university was constructing the Muir College Apartments, two eight-story apartment buildings using elastometric formliners with a visible random wood grain pattern.

Bio Strip WB is a 100% natural organic chemically reactive release agent. Ideal for sensitive environmental situations such as bridge formwork over rivers and streams or potable water reservoirs. Bio Strip WB provides quick, easy release and leaves an architectural bondable concrete surface

BENEFITS:

- Organic/Biodegradable
- No petroleum distillates
- Environmentally friendly
- VOC compliant
- Odorless
- Ready to use
- Chemically reactive/Non-staining

SpecChem provides the most comprehensive concrete chemical systems in the industry. For more information call your local SpecChem sales professional. 888.791.8700 or www.specchemllc.com
