Lebanon Valley Industrial Park VII

Bethlehem, PA

Contractor: T & T Construction

This 677,000 sq. ft. build to suit Norwood Company tilt-up project in Bethlehem, PA utilized a 100% compatible chemical package from SpecChem.

T&T Construction of central Florida has been serving the construction industry since 1995. T&T's expertise and experience in tilt-up construction ensures that their client's building needs are met and important building details are not overlooked.

T & T Construction selected E-Cure to cure the floor slab. E-Cure offers an ASTM C-309 cure that does not interfere with densifier/sealer applications at project completion.

A combination of SpecTilt WB (VOC compliant water-based) and SpecTilt EX (VOC compliant solvent-based) was used for cure and bondbreaker in the panel casting areas due to a challenging winter work schedule.

After cleaning and degreasing with SpecChem Orange Peel Citrus Cleaner, Budget Maintenance applied SpecHard to seal, harden, and dustproof the entire floor slab.

SpecChem provides the most comprehensive concrete chemical systems in the industry. For more information call your local SpecChem sales professional. 816.968.5600 or www.specchemllc.com

SpecTilt WB

*Reactive Water-based
Bondbreaker*

- Panels lift easier
- Chemically reactive
- Clean panels, no resin stains
- Resists foot traffic abrasion
- VOC Compliant < 350 g/l

E-Cure

*Water-Based Concrete
Curing Compound*

- Contains 0 VOC's
- Non-yellowing, does not alter natural color of concrete
- Certified for use to cure potable water structures

SpecHard

*Water-Based Silicate
Sealer / Densifier*

- V.O.C. compliant
- Non-Yellowing
- Cures, seals, hardens, dustproofs and prevents efflorescence
- One application, economical
