

# DuoPatch

## The Complete Repair Solution

*Make DuoPatch your next patching recommendation. Your customers will want more!*

- ▶ DuoPatch is one of the most versatile concrete patching products available on the market today. It excels on all types of concrete repair challenges in new construction, restoration and repair.
- ▶ DuoPatch is two component repair mortar packaged in a self contained 60 lbs. pail kit (50 lbs. of powder/ 1 gal. of DuoPatch Admix) or in a unit consisting of a 50 lb. bag and 1 gal. jug of DuoPatch Admix.
- ▶ Simply by varying the amount of DuoPatch Admix used, DuoPatch can be mixed to provide any consistency that the contractor chooses. DuoPatch ranges from a flowable overlayment or a form and pour mix on one end of the spectrum to a thin resurfacer for vertical and overhead repairs.
- ▶ DuoPatch can be used to cover 90% of the concrete patching applications on any given jobsite.
- ▶ DuoPatch finishes to a light gray color that matches extremely well with the surrounding concrete.
- ▶ DuoPatch features excellent adhesion, and can be applied from a featheredge up to 2 inches deep. For patches deeper than 2 inches, 25 lbs. of pea gravel can be added.
- ▶ DuoPatch provides a durable repair, exhibiting excellent wearability, abrasion and freeze/thaw resistance. DuoPatch can be used for exterior and interior applications.
