

SpecGuard

High Gloss Concrete Protectant/Polish

A multi-component, water-based polymeric protectant that improves the appearance and durability of concrete floors. SpecGuard incorporates a cross-linking nano-technology which aids penetration and adhesion creating a tough, stain-resistant coating.

BENEFITS

- Does not require buffing
- Protects colored or dyed concrete from UV degradation
- High solids concentrated formula
- Durable/Breathable
- Retains high gloss under scrubbing
- Resists staining when subjected to periodic dripping of hot oils, making it ideal for use in food preparation areas
- Rejuvenates with dry buffing
- Easy to apply and reapply
- Safe to use—Water based, low odor
- SpecGuard meets all federal V.O.C. requirements (*check local/regional regulations for compliance*)

USAGE

- Provides 24-hour stain protection to the most common stain-causing agents found in grocery stores, restaurants, warehouses and distribution centers
- Treated floors exhibit instant exceptional gloss and long-lasting scuff, scratch and stain protection
